## SUMMARY

I am a dedicated Obstetrician and Gynecologist with over 35 years of clinical experience, specializing in high-risk obstetrics and advanced gynecological procedures. My expertise includes infertility management and comprehensive women's healthcare. I have a strong commitment to improving maternal and fetal health outcomes through patient-centered care and innovation in medical education. My extensive background includes academic leadership, clinical training, and mentoring future healthcare professionals

## EXPERIENCE

### NMC Specialty Hospital

Dubai, UAE

Obstetrician & Gynecologist

03/2022 - Present

A healthcare facility providing specialized obstetric and gynecological services

- Delivered comprehensive obstetric and gynecological care, including routine check-ups, screenings, and surgical interventions
- Specialized in high-risk pregnancy management, ensuring maternal-fetal safety through intensive monitoring and treatment plans
- Diagnosed and treated gynecological conditions such as menstrual irregularities, fibroids, ovarian cysts, endometriosis, and hormonal imbalances
- Performed a range of surgical procedures, including cesarean sections, hysterectomies, myomectomies, ovarian cystectomies, and minimally invasive laparoscopic surgeries
- Conducted ultrasound evaluations and diagnostic imaging to aid in clinical decision-making and early disease detection
- Oversaw and implemented patient-centered treatment protocols, ensuring adherence to international best practices and evidence-based medicine
- Worked collaboratively with anesthesiologists, neonatologists, radiologists, and other specialists to provide integrated patient care
- Participated in hospital quality improvement initiatives, focusing on patient safety and enhanced clinical outcomes

### Zulekha Hospital

Dubai, UAE

Specialist Obstetrician & Gynecologist

12/2014 - 03/2022

A multi-specialty hospital offering comprehensive medical services

- Provided expert antenatal care for both routine and high-risk pregnancies, ensuring optimal maternal and fetal outcomes
- Conducted gynecological surgeries, including diagnostic and operative laparoscopy, hysteroscopy, and vaginal reconstructive procedures
- Managed emergency obstetric and gynecological crises, stabilizing critical cases and performing necessary life-saving procedures
- Designed individualized treatment plans for patients with menopause, PCOS, infertility, and reproductive health concerns
- Led multidisciplinary case discussions, ensuring collaborative patient management with a focus on holistic well-being
- Provided counseling and education to patients regarding family planning, fertility treatments, and contraceptive options
- Trained and mentored junior doctors, nurses, and medical students, sharing expertise in both clinical and surgical practices
